

ARD-472 PRO[®]-SHINE[™] Vinyl & Plastic Coating

IMPROVED!

NEW PRODUCT IMPROVEMENTS:

- ***New Cherry Fragrance***
- ***New Hooded Actuator (Spray Tip)***
- ***New Valve***
- ***New Dip Tube***

While the proven formula remains the same, we have added a cherry fragrance to make the product even more user friendly.

The mechanics of ARD-472 PRO[®]-Shine[™] have been totally reworked with a new actuator, valve and dip tube.

The new spray tip, which opens the valve, provides a more consistent spray pattern for automotive interiors.

A new valve, to control how much product comes out and how fast, to eliminate any leaking and pooling. Finally, a new dip tube has been added to provide better flow when the spray tip is pressed and the valve is opened to release product.

***This all translates
to a vastly
improved and
great working
product.***

***New Cherry Fragrance
New Mechanics***
