AGC-18 AEROSOL GLASS CLEANER

FEATURES AND BENEFITS

PRO® AGC-18 AEROSOL GLASS CLEANER makes final detail work quick and easy. AGC-18 is formulated with professional quality cleaners, brighteners and non-streak ingredients which make it an ideal product to be used year round in all types of weather. Designed and formulated to improve visibility in wet weather, reduce water spots and protect against damage caused by deep water spots including salt-air related problems. AGC-18 contains wetting agents within a pleasant baby powder scent that help spread powerful grease cutting agents. Also, AGC-18 contains penetrating chemicals which dissolve sticky adhesives caused by window stickers, tape and decals. Aerosol Glass Cleaner leaves no films and provides the surface with a protective coating for easy maintenance.

RECOMMENDED FOR

AGC-18 was designed and formulated to effectively cut through and remove dirt, grease, water spots, smoke film, compound/polish over-spray, road grime and fallout. Ideal for use on windows, tinted windows, windshields, mirrors, chrome and stainless steel. AGC-18 will not harm rubber moldings or painted finishes.

APPLICATION

SHAKE WELL BEFORE USING. Hold can upright 8 to 12 inches from surface to be cleaned. Spray and allow the foaming action to penetrate. Then polish with a dry, clean PT-7 PRO® Microfiber Towel.

SPECIAL NOTES

AGC-18 is also great for plastic, tile, porcelain and other non-porous surfaces. When removing stickers from glass, saturate well and allow to soak for 3 to 5 minutes.

PACKAGING

20 OZ. CAN/12 PER CASE
