## C-28-Q Seat Belt Cleaner & Spot Remover

### FEATURES AND BENEFITS

This is another specialty item from PRO® to make detailers jobs a lot easier. Seat Belt Cleaner and Spot Remover is a nonflammable and nonhazardous concentrated cleaner that safely removes dirt, oil, grease and stains from seat belts, upholstery and more. It has a strong formula that releases the built up dirt and grease that makes seat belts look unsightly. Breaking down grease is a tough job and this product has proven that it has no equal when it comes to quick and easy cleaning of tough spots in carpets and upholstery. Most seat belts are made of a nylon type of material, very tightly woven. It doesn't want to give up the dirt without a fight. The same goes for stains. Just a quick application of C-28 and you will see the amazing results. Remember, it is non-caustic, so it will not harm the fibers. C-28 is a very handy product to keep around the shop. It can be used to remove unexpected spots or

grease when detailers or mechanics are working in and around the interior of vehicles.

### RECOMMENDED FOR

C-28 was developed mainly for cleaning of seat belts but we found that it was so superior on upholstery, glass, chrome and mirror surfaces that we didn't want to limit the usage to just seat belts. You will find at various dilution ratios that it qualifies as a superb all purpose cleaner

### APPLICATION

Directions: Shake well before using. Safety glasses and rubber gloves are recommended while using this product. Make sure you dilute this product according to the task you are performing. When tackling tough jobs you can use this product at full strength. Here are other recommended dilution ratios:

Seat Belt Cleaning: 1 part cleaner to 1 part water  
Spot & Stain Removal: 1 part cleaner to 3 parts water.  
Carpet Cleaning: 1 part cleaner to 10 parts water.  
General Purpose Cleaning: 1 part cleaner to 15 parts water.  
Glass, chrome and mirror surfaces: 1 part cleaner to 30 parts water. To apply just spray on surface and allow to sit approx. 15 seconds. Wipe with a clean terrycloth towel.

### SPECIAL NOTES

Textured, porous and saturated surfaces, built up grease, oil and grime may require the product to be used at full strength.

### PACKAGING
