# CALIFORNIA ORANGE™

### FEATURES AND BENEFITS

California Orange™ is a heavy duty, organic tar & wax remover and deodorizer. Its natural, non-petroleum formula is powerful enough to meet all removal requirements in most industries while still being safe and non-toxic. It's biodegradable and is blended from natural citrus terpens that work like petroleum solvents. It has powerful cleaning abilities and contains surfactants and coupling agents that allow this concentrated solvent to dilute and rinse easily in water. Removes tar, wax, graffiti, felt pen marks, indelible ink, scuff marks, gum, asphalt, silicone, oil, grease, tape and adhesive residue, cosmoline, paint overspray, organic fallout, bug residue and other contaminants. Among these other features, it has great deodorizing qualities. It meets and exceeds most performance standards with a degree of safety, both environmentally and with personnel, not found in petroleum solvents.

### RECOMMENDED FOR

Auto, industrial, janitorial and household use applications as a replacement for petroleum solvents. Removes dozens of unwanted contaminants with a much safer and environmentally friendly biodegradable quality. Removes biological residue such as insect carcasses, bee pollen and tree sap.

### APPLICATION

**Directions: Shake well before using.** For your protection safety glasses and rubber gloves are recommended while using this product. When diluted with water, it develops into a milky appearing liquid.  
**Bug Removal:** (dilute 3:1) Spray, brush or wipe onto affected area and agitate with brush/sponge. Rinse Clean with high pressure water.  
**Road Grime:** (dilute 5:1) Saturate a clean, white cloth with product and wipe the affected area. While surface is still wet, wipe off immediately with a clean, dry cloth.

### SPECIAL NOTES

Not for use on lexan or clear plastic surfaces. May damage some plastic, rubber and painted surfaces. Test on inconspicuous area before general use.

### PACKAGING

20 OZ. AEROSOL/12 PER CASE  
GALLON/4 PER CASE
