- **Non-Flammable Formula**
- **Contains UV Inhibitors**
- **Non-Tacky Finish Formula**
- **VOC Compliant**

S-66 LIQUID BLUE ICE™ Tire & Trim Dressing

FEATURES AND BENEFITS

A high gloss liquid exterior dressing designed for use on tires, trim and bumpers. Liquid Blue Ice™ revitalizes rubber, vinyl and plastic surfaces while leaving a rich, high gloss shine. Its viscous consistency sprays on clear (no milky residue) and lays down immediately for an instant shine. Its non-flammable formula dries to a water repellent, non-tacky finish that won't collect dust. Liquid Blue Ice™ utilizes a high viscosity silicone that provides superior coverage, yielding a more efficient application. UV inhibitors help protect against sun damage. May be applied on wet and dry surfaces. Pleasant Kookaberry™ fragrance. Safe for all rubber, vinyl and plastic. V.O.C. Compliant.

RECOMMENDED FOR

Liquid Blue Ice™ is great for all types of exterior automotive applications. Use on tires, bumpers, moldings, trim & vinyl tops. Gives an extra high gloss to all rubber, vinyl or plastic. **Ideal for car washes** where tires

are not always dry. Excellent product where flammables and combustibles are not allowed and areas that you want to control the gloss levels.

APPLICATION

Directions: For your protection, rubber gloves are recommended while using this product. See M.S.D.S. for additional safety information. On badly weathered and soiled surfaces, pre-clean with C-52 Whitewall Cleaner or C-49 Heavy Duty Interior Cleaner, depending on the surface to be cleaned.

Tires: Hold sprayer 2" to 4" from tire and spray evenly on a clean, dry surface. Do not smear or wipe. Allow 2-3 minutes for runs or drips to dissipate. Dries to a super high gloss. For less gloss, apply with sponge or terry applicator and wipe surface to attain desired gloss level.

Rubber, vinyl & plastic trim: Apply to sponge or applicator and wipe product on pre-cleaned surface and let dry. Leaves a glossy finish. For less gloss, wipe surface with a dry cloth to produce a natural luster.

For Satin Gloss: Dilute 1:1 with water for in

separate quart container only. Product must be shaken before each use when it has been diluted.

WARNING: MAY BE HARMFUL IF SWALLOWED. In case of accidental ingestion, give plenty of water. KEEP OUT OF REACH OF CHILDREN.

SPECIAL NOTES

Use only as directed. Not for use on clear plastic (instrument panels), vehicle controls (pedals, grips, steering wheels) or brake discs/drums.

Wipe off excess material on tires to avoid unabsorbed products from spinning off tires onto body panels.

PACKAGING

GALLON/4 PER CASE
5 GALLON CUBE
55 GALLON DRUM
