Car Wash Products

FACT SHEET

Name: CW-2019-5 ALKALINE PRE-SOAK

Description: Use as an initial vehicle shampoo in all types of tunnel and in-bay automatics and rollover applications. Contains two high foaming detergents for quick penetration of greasy road film.

Benefits: A thick rich lather helps lift the soil so that it is easily removed in the tunnel. Concentrated for yields between 1,500 and 2,500 cars per 5-gallon cube. Formulated with lubricity agents to avoid scratching. Rinses easily to a sparkling shine.

Packaging: 5-gallon cube 30-gallon drum

Dilution: **Stock Solution:** CW-2019-5 ALKALINE PRE-SOAK. Using Hydro-Minder 511 purple tip (120:1).
Ultra lean tip: .015 Red, new style ** 10067611 (131:1)
Final Dilution: 150:1 (Will vary depending on car wash equipment)
Direct Injection: Set pump to 150:1
