Car Wash Products

FACT SHEET

Name: CW-2021-5 FOAMING AUTO SHAMPOO

Description: Use as an initial vehicle shampoo in all types of tunnel and in-bay automatics and rollover applications. Contains two high foaming detergents for quick penetration of greasy road film. Cherry fragrance for product identity.

Benefits: A thick rich lather helps lift the soil so that it is easily removed in the tunnel. Concentrated for yields between 1,500 and 2,500 cars per 5-gallon cube. Formulated with lubricity agents to avoid scratching. Rinses easily to a sparkling shine.

Packaging: 5-gallon cube, 30 gallon Drum

Dilution: **Stock Solution:** Pre-Dilute CW-2021-5 FOAMING AUTO SHAMPOO approx. 4:1 ratio. Using Hydro-Minder 511 purple tip (120:1).

Final Dilution: 600:1 (Will vary depending on car wash equipment)

Direct Injection: Set pump to 350-600:1
